Summary

Computer Science undergraduate specializing in AI/ML with strong foundations in Data Structures and Algorithms, Java, and backend development. Experienced with Spring Boot, React, and AI/NLP applications, with a focus on building scalable and practical software solutions. Looking for an SDE internship to contribute to real-world products while growing as a software engineer.

Skills

Languages	Java, JavaScript, SQL, HTML, CSS
Frameworks	Spring Boot, React.js
Core CS	Data Structures & Algorithms, OOP, DBMS, Operating Systems
Tools	Git, GitHub, REST APIs
AI/ML	Machine Learning, NLP, Generative AI

Projects

Chatbot Interface — GitHub

Developed a responsive chatbot interface using React with dynamic message rendering, interactive user input, and reusable components. Implemented dark mode support and efficient UI state handling for a seamless user experience.

E-commerce Web Application — GitHub

Developed a React-based e-commerce application featuring dynamic product management, client-side routing, and efficient state management. Integrated backend APIs for seamless data handling and implemented testing to improve application reliability and performance.

Work Experience

Java Developer Intern — Infosys Springboard Internship 7.0 Aug 2026 - Present

Developing Java-based applications as part of the Infosys Springboard Internship 7.0, strengthening skills in object-oriented programming, backend development, database integration, and software development practices. Working on implementing application features, debugging code, and following structured development workflows.

Education

2024 - present	B.Tech (CSE - AI/ML) at **PSIT, Kanpur**	(CGPA: 7.3/10)
2023	Senior Secondary (12th) at Gardenia Public School, Kanpur	(81.16%)
2021	Secondary (10th) at Abalone Public School, Lakhimpur Kheri	(80.50%)

Co-Curricular Activities

Co-founder of a sports and e-sports community; organized events, managed teams, and coordinated community activities.
