Summary

Computer Science undergraduate specializing in AI/ML with strong foundations in Data Structures and Algorithms, Java, and backend development. Experienced with Spring Boot, React, and AI/NLP applications, with a focus on building scalable and practical software solutions. Looking for an SDE internship to contribute to real-world products while growing as a software engineer.

Work Experience

Java Developer Intern — Infosys Springboard Internship 7.0 Aug 2026 - Present

Developing Java-based applications as part of the Infosys Springboard Internship 7.0, strengthening skills in object-oriented programming, backend development, database integration, and software development practices. Working on implementing application features, debugging code, and following structured development workflows.

Projects

Some Project Link to Demo

Developed a responsive chatbot interface using React with dynamic message rendering, interactive user input, and reusable components. Implemented dark mode support and efficient UI state handling for a seamless user experience.

Education

2030 - present	PhD (Subject) at **University**	(GPA: 4.0/4.0)
2023 - 2027	Bachelor's Degree at **College**	(GPA: 4.0/4.0)
2022	Class 12th Some Board	(Grades)
2021	Class 10th Some Board	(Grades)
